

ANIRBAN SAHA ANIK

☎ (940) 977-1183 | 📍 Denton, TX, USA

🌐 Portfolio | ✉ AnirbanSahaAnik@my.unt.edu | in LinkedIn | 🐙 GitHub | 🎓 Scholar

SUMMARY

CS PhD student and published NLP researcher (9 peer-reviewed publications; COLM, EMNLP) working on trustworthy and human-centered large language models. My research spans knowledge-grounded generation (retrieval-augmented generation and knowledge graphs for factual reliability), controllable and personalized text generation, and LLM evaluation.

EDUCATION

University of North Texas

Ph.D. in Computer Science and Engineering (GPA: 4.0/4.0)

Denton, TX

Jan 2026 – Present

University of North Texas

M.S. in Data Science (GPA: 4.0/4.0)

Denton, TX

Dec 2025

American International University-Bangladesh (AIUB)

B.S. in Computer Science and Engineering (CGPA: 3.59/4.0)

Dhaka, Bangladesh

Dec 2021

TECHNICAL SKILLS

Programming: Python, SQL, R

ML & Deep Learning: PyTorch, TensorFlow, Hugging Face Transformers, scikit-learn, NumPy, Pandas

LLMs & GenAI: Retrieval-Augmented Generation (RAG), Knowledge Graphs (GraphRAG), Multi-Agent Systems, LoRA / PEFT, RLHF, Prompt Engineering, LLM Evaluation

Tools & Platforms: Git, Docker, Linux, vLLM, Neo4j, FAISS

RESEARCH EXPERIENCE

Graduate Research Assistant — NLP / LLMs

University of North Texas | Advisor: Lingzi Hong

May 2025 – Present

- Develop retrieval-augmented generation (RAG) and knowledge-graph methods that ground large language model outputs in trusted external evidence, targeting factual reliability and misinformation.
- Research controllable and adaptive text generation that tailors LLM responses to different levels of user literacy and comprehension.
- Build evaluation frameworks and benchmarks for measuring the factual accuracy and quality of LLM-generated responses, using both automated and human evaluation.
- Research multi-agent and multi-turn LLM systems for reasoning, decision-making, and response generation in high-stakes settings.

Research Assistant

American International University-Bangladesh | Advisor: Md. Kishor Morol

May 2022 – Dec 2022

- Conducted medical data analysis using deep learning for disease detection, contributing to 3 publications on COVID-19 detection, educational assessment, and pandemic prediction.
- Mentored undergraduate students in research methodology, experimental design, and technical writing for conference submissions.

INDUSTRY EXPERIENCE

Data Insights Analyst (Internship)

SEES Group, Franklin, TN

Aug 2025 – Dec 2025

- Built data engineering and analytics pipelines in Microsoft Fabric for enterprise data integration and transformation.
- Implemented data governance, compliance, and security protocols to ensure data integrity and regulatory adherence.

AWARDS AND HONORS

- **Sinha Scholars Scholarship**, University of North Texas (2025) – Merit-based award for academic excellence
- **Runner-Up & Honorable Mention**, SIG-SM Social Media Research Competition 2025
- **1st Place**, Health Informatics & Data Science Day (Poster), University of North Texas
- **TGS Summer Award**, Toulouse Graduate School, UNT (Summer 2025) – Competitive tuition support

PROFESSIONAL SERVICE

- **Conference Reviewer:** JCDL; CLEF 2025, CLEF 2026 | **Journal Reviewer:** Aslib Journal of Information Management
- **Teaching:** Graduate Teaching Assistant, University of North Texas (Aug 2024 – May 2025) — Data Science & Data Visualization.
